## Information

This has been an amazing year with students, teachers, and staff!

Thank you for your flexibility and openness as we make strides towards moving students to mathematical conceptual understanding.

I look forward to an even better year in the upcoming school year. Have a great and relaxing summer!

## May Monthly Tip!

To ensure students are retaining information learned throughout the year. You can keep the practice going by,

-including specific skill work in homework packets (see me for an example of this)

-early finisher work

-bell work/do now

-include a question(s) at the end of weekly assessment.

-Think about creating summer packets that contain work students may still struggle in or to just use as a review of information taught during the school year.

## 3<sup>RD</sup> GRADE

STANDARD(S):

- 3.OA.8 (Solve two-step word problems involving +, -, x and ÷)

ACTIVITIES:

- iReady Post Assessment

## 4<sup>TH</sup> GRADE

STANDARD(S):

- 4.OA.3 (Multi-step word problems)

ACTIVITIES:

- iReady Post Assessment

## 5<sup>TH</sup> GRADE

STANDARD(S):

- 5.OA.2 (Write and interpret simple expressions)
- 5.OA.1 (Parentheses, Brackets & Braces)

ACTIVITIES:

- iReady Post Assessment
